- Google SEO Optimization

## EXPERIENCE

### Freelance Full Stack Web Developer

Remote | 2021 – Present

Built custom websites focused on performance, responsive design, and user experience. Applied SEO best practices to improve visibility and brand presence. Worked closely with clients to deliver tailored solutions that boosted sales and customer acquisition. Designed complete UI/UX interfaces aligned with business goals.

## HIGHLIGHTS

### E-commerce Platform

Built a complete e-commerce platform with shopping cart, MercadoPago payment integration, JWT-based role authentication, and Google OAuth.

### Backend MVP API

Created a centralized backend API using NestJS, Express, and Swagger. Connected multiple frontend apps with authentication, image handling, and logistics APIs.

### Containerized Deployments

Implemented Docker and NGINX for scalable, containerized deployments across multiple environments.

### Transactional Services Integration

Set up transactional email services and connected MySQL databases using TypeORM. Integrated external APIs for payment and shipping.

### UI/UX Optimization

Designed responsive interfaces with Tailwind CSS, Sass, Bootstrap, Material UI. Followed SEO best practices for improved performance and discoverability.

## EDUCATION
